How to Use This List

Bot Score Ranges:

- 0-45: Likely Real (minimal bot indicators)
- 40-60: Uncertain (mixed signals - review manually)
- 50-85: Likely Bot (strong bot indicators)

Risk Signals Explanation:

- 'Long trailing digit run': Username ends with many numbers (e.g., 0002025, 7172)
- 'High digit ratio': 50%+ of username are numbers
- 'Generic template': Generic word + numbers pattern
- 'No vowels': Username contains few/no vowels (bot pattern)
- 'Multiple separators': Excessive underscores, dots, dashes (bot style)
- 'No bio': No biography information (bot indicator)

Action Plan:

Step	Action	Target	Impact
1	Remove all bot accounts	99 Likely Bot	Clean follower base
2	Manually review uncertain	31 Uncertain	Clarify gray area accounts
3	Keep & engage real followers	99 Likely Real	Build authentic community

Result: After removing 99 bots + deciding on 31 uncertain, you'll have ~100-130 genuine followers. True account health: 11-17% authentic. Real engagement will improve significantly.
