CONCLUSION & NEXT STEPS

Current Account Status: HIGH RISK - 73% bot followers

Primary Issue: The account has accumulated 831 bot followers through follow/unfollow tactics or follower exchanges. This severely impacts:

- Engagement metrics (real engagement is only 1-2%)
- Algorithm perception (Instagram may flag as spam)
- Audience authenticity

Solution: Aggressive bot removal + authentic growth strategy

Expected Outcome (6 months):

- 303 → 350-400 genuine followers
- Engagement: 1-2% → 20-25%
- Monthly reach: 50-100 → 2,000+
- Algorithm: Low → High favorability

This accounts for a 65% follower reduction but 1000% engagement improvement.

Start Date: Immediately

First Goal: Remove 300 bots by end of Week 1

Success Indicator: Engagement rate increases to 5%+ within 2 weeks
